

Chrysanthos Underglazes

- *Firing range: Cone 06 - 10*
- *Colours may change slightly with higher temperature firings.*
- *Available in 500ml bottles*

Chrysanthos has been making quality glazes and underglazes at great prices since their start in Australia in 1990. When applied properly to bisque and greenware with 2-3 flowing coats, these underglazes provide full opaque, streak free coverage. This product has a nice consistency which is designed to be used right from the bottle for painting, but with the addition of a little clean water, it can be sprayed or sponged to create interesting textures and finishes.

MSDS and colour charts are available at www.Chrysanthos.com.

DAL BISQUE TILES:

Perfect for classroom projects, custom kitchen backsplashes, or any tile based artwork, these square, white tiles come well packaged in plain brown cardboard boxes, and are meant for use with commercial underglazes and glaze. Dust or wipe the tile surface before applying glazes to remove any clay dust and prevent glaze defects. For best results, fire to Cone 06-04. Sold individually or by the case, see pricing below.

1.75" x 1.75" TileEach..... \$0.57
Box of 950..... \$487.35

4.25" x 4.25" TileEach..... \$1.23
Box of 100.. \$104.70

6" x 6" Tile ... Each.....\$1.81
 ... Box of 50.....\$76.50

TILES SETTERS:

For pricing and selection of our tile setters, please refer to our kiln shelving section.

Spectrum Underglazes

Spectrum underglazes are **made in Canada** and produce rich, beautiful colors. Use these colors like you would use paint, to create colorful images and imaginative designs. These liquid underglaze colors may be thinned with water for a watercolor paint style, or left thick for bold strokes of color, or even blended together for more shades.

Lead free and available in 4 oz. and pint containers, they have their best color at cone 06-04 but they can be fired higher. Underglaze has a matt finish so cover your designs with a clear, glossy glaze such as Spectrum #700 for best results. Gallons of underglaze are also available on special order and we can quote prices if you are interested.

Note: These underglazes are meant for cone 06-04 firings. However, most can be fired up to cone 9. Colors will change when firing higher than cone 06-04. Please test higher temperature colour results in your own kiln firings to get the most accurate reponse.

Underglazes Products, Assorted:

Underglaze Pencils:

These Italian wood encased pencils are available in the following colors: Black, brown, blue, green, rose, yellow

- Individual pencils..... \$17.89
- Set of all 6 colors \$93.00

Maximum firing temperature are: cone 10 for black, blue & green, cone 5 for yellow and brown, and cone 05 for Rose. Colors fired higher than these recommended temperatures will lighten and change tone.

Spectrum RAC Underglaze Pens (2oz):

RAC from Spectrum is a line of slip-based colours (or engobes) which are available in 2oz squeeze bottle applicators, and come with a fine metal tip for decorating on bisque and greenware. You can easily use these underglaze pens to make thick or thin, flat or raised decoration just by varying finger pressure and writing speed. Try using them over and under your favourite glazes to add depth with another layer of decoration. Colours available are:

- | | |
|---------------------|---------------------|
| RAC0, Natural | RAC9, Pink |
| RAC1, White | RAC10, Rose |
| RAC2, Grey | RAC11, Lavender |
| RAC3, Black | RAC12, Light Blue |
| RAC4, Brown | RAC13, Royal Blue |
| RAC5, Honey | RAC14, Turquoise |
| RAC6, Bright Yellow | RAC15, Bermuda |
| RAC7, Lime Green | RAC16, Hunter Green |
| RAC8, Orange | |

- Each 2oz Pen w/ tip..... \$6.50 ea
- Extra Metal tips: \$0.65 ea

Minnesota Clay: U/G Potter's Stamp Pad

Now you can decorate using rubber stamps! The Potter's Pad is a great way to apply underglaze decoration and visual interest. Using the Potter's pad is just like using a regular stamp pad.

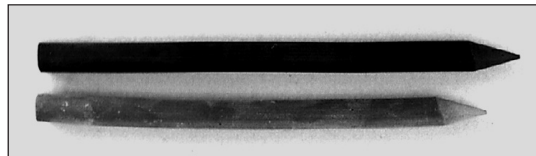

Simply apply an inked rubber stamp to a bisque fired piece, allow the decoration to dry and cover with a transparent glaze. Potter's pad inks have been designed to work at a wide range of glaze maturing temperatures. For best results, fire between cone 06 and cone 8. All the colors may be tried at higher temperatures than cone 8 or in reduction. Refills

- Available in 4 colors: Black, Blue, Green, Teal.
- Potters Stamp Pads..... \$25.39

Underglaze Choxils:

Choxils are similar to an underglaze pencil except they are made of solid color, no wood casing. Colors are stable to cone 8 except for Rose which is stable to cone 4. Available in these 10 colors: Black, Brown, Blue, Green, Rose, Yellow, Turquoise, Lavender, Grey, Red-Brown.

- Individual Choxils..... \$7.79

Amaco Underglaze Pan Colors:

Sets of 8 pans of underglaze color in a watercolour paint tray. Watercolor technique allows a transparent one-stroke effect from these opaque colors. Use on bisque or greenware. Pink, maroon, peach, rose and yellow are good to cone 6. All others can be fired to cone 10.

- 108 Set** contains: Maroon, pale yellow, dark blue, blue-green, dark green, black, brown, white
- 109 Set** contains: Turquoise, lilac, blue, pink, warm grey, mahogany, yellow, green.
- 110 Set** contains: Purple, light blue, aqua, rose, orange,peach,..... chartreuse, tan.

- Each set, priced at\$47.39ea

Amaco Underglaze Crayons:

Sets of 8 underglaze crayons. Similar to chalk pastels. Use on bisque. Colors may be blended by rubbing or softened by brushing over with water. Cover with clear glaze or leave unglazed for a soft, dry surface. Sponge on the first coat of clear glaze lightly in order not to smear design.

- 208 Set** contains: Turquoise, yellow, rose, dark blue, brown, dark green, black, white.
- 209 Set** contains: Lilac, yellow-green, grey, medium green, light brown, blue-green, dark brown, medium blue.

- Each set, priced at\$53.19 ea

Amaco Velvet Underglazes:

These quality underglazes fire up to high temperatures, yet retain their color.

Chrysanthos Superior Glazes

- **Firing range: Cone 07 - 03**
- **Colours may change with higher temperature firings.**
- **Available in 500 ml (5 Litre sizes available for clear and white glaze)**

Chrysanthos has been making quality glazes and underglazes at great prices since their start in Australia in 1990. Chrysanthos Superior Glazes add bright color and gloss to ceramic ware in one easy step and they come in a great assortment of colors which are all lead-free. Superior Glazes offer a full range of finishes including translucent, semi-opaque and opaque and colours are suffixed by an opacity indicator; "O" for opaque, "S" for semi-transparent and "T" for transparent. Please apply 2-3 coats for the richest colour coverage. This product has a nice consistency which is designed to be used right from the bottle for painting, but with the addition of a little clean water, it can be sprayed as well.

MSDS and online colour charts are available at www.Chrysanthos.com.

Metallic glazes

Spectrum is delighted to introduce their new low fire Metallic glazes! Unlike lustres or overglazes, these are regular low-fire glazes and will fire in your kiln with any other low fire glaze. However, while the new Glazes are lead free, they are not non toxic and they are not dinnerware safe. Please do not use them on functional ware.

Gallons

MS29..... Clear bright \$ 94.35

While we stock mainly pint sizes for Moroccan Sand glazes, gallon containers can be ordered in any of the other glazes in this series. Gallons of MS29 are considered normal stock for Greenbarn.

Plainsman Clear Dry Glazes (Mid temp):

Have you struggled to get that perfect medium temperature clear glaze? The techs at Plainsman have heard you and they bring you the following clear base glazes designed to match your favourite PCL clays. Use them as is for simple & durable transparent glazes, or add your own colorants to personalize them. For chips, samples and more information on how to customize these products, please visit <http://plainsmanclays.com>

Stoneware Glaze (clear) 500gr 2.5 kg 5 kg 20 kg
 Stoneware Glaze (clear).....8.2536.1068.35205.00
 - for the off white and red clays, like M325, M340, M350, M390

Whiteware Glaze (clear) 500gr 2.5 kg 5 kg 20 kg
 Whiteware Glaze (clear).....5.6523.2543.95132.00
 - for our very white clays & porcelains, like M370, and P300.

Matte Glaze (clear) 500gr 2.5 kg 5 kg 20 kg
 Matte Glaze (clear)6.1024.6546.60139.80

Other Dry Glazes (Mid temp):

The dry glazes below are carried in stock.

Glaze	500gr	2.5kg	5kg	50 lbs
MS29 Clear	7.60	33.00	63.00	236.00
MS63 White gloss.....	9.00	39.00	74.00	279.00

Dry, premade glazes can be prone to settling and we recommend adding a suspension agent like bentonite, PRIOR to adding your water and sieving. Please ask us if you have questions. Other Laguna dry glazes are available on special order.

Laguna Glazes - DRY

Dry glazes do not contain any suspension agents or brushing media and these glazes may settle after mixing. We recommend that you add bentonite to the dry material *before* adding water, and then sieving your glaze to help keep your glaze in suspension.

- not stocked, special order only
- allow 3-4 weeks for delivery
- Cone 5/6 Temperature

DRY GLAZE - 12 lb. bags (approx. 5kg)

AMACO "Potter's Choice" Cone 6 Glazes

A collection of potters' favorite glazes made easy. These glazes are dsigned for firing in an oxidation kiln, but they are made for anyone who would like to achieve the amazing Cone 10 reduction effects without having to have a reduction gas kiln or firing at that high temperature. Vary their thickness, play with different combinations and overlaps and the PC Series glazes look beautiful and authentic. Visit www.amaco.com for more information.

Laguna "Crystalline" Glazes, Cone 5

Introducing Laguna's crystalline glazes! These spectacular crystals are wonderfully three-dimensional. While some crystalline glazes seem "impossible," by using these glazes and the following firing schedule, you'll be amazed at the beautiful crystals that will appear! This firing schedule may require adjustment in different kilns and under varying conditions. Select from stock colors, or blend your own choice of stain or oxide to the base glaze, WC-160. These glazes are lead free and certified nontoxic. Excellent crystal growth results in slightly raised crystal structure (Laguna recommends a more durable choice for high abrasion areas of dinnerware sets).

No.	Color	Pint
WC160.....	Lavender Filigree.....	17.70
WC161.....	Light Crystal Tea.....	17.90
WC162.....	Blue Snowflakes.....	18.50
WC163.....	Butter Drop.....	22.80
WC164.....	Mint Coffee.....	18.10
WC165.....	Translucent Mint.....	18.20
WC166.....	Crystal Forest.....	19.80
WC167 ...	Plum Blossum Green.....	21.00

Crystalline Glaze Firing Schedule (as provided by Laguna)

There is no such thing as a foolproof firing schedule for crystalline glazes, but here is a good place to start for Cone 5:

Segment	Rate	Temp	Hold
1	250°/hour	1250°F	0
2	350°/hour	2140°F	0
3	25°/hour	2165°F	0
4	9999 setting	1950°F	3 hrs.

Lustres and Metallics

These overglazes add precious metal and jewel-like decoration to already glazed pieces. Since the products are costly, we strongly recommend proper application and firing. We offer luster products from Laguna and Duncan. Firing range: Cone 019-018 on low fire ceramics, Cone 017-016 on stoneware and porcelain. Cone 022 - 016 on glass.

Laguna Metallics

Laguna offers high quality European metallic lustres available in gold and silver colors.

Laguna bright gold - 2 gr	\$48.89
Laguna Palladium - 2 gr.....	\$48.89

Duncan Lustres

0G801 - Bright Gold - 2 gr.....	\$54.39
0G802 - White Gold - 2 gr.....	\$47.89
0G803 - Mother of Pearl - 1/2 oz.....	\$12.00
0A901 - Essence - 1/2 oz.....	\$12.00
