

Chrysanthos Underglazes

- *Firing range: Cone 06 - 10*
- *Colours may change slightly with higher temperature firings.*
- *Available in 500ml bottles*

Chrysanthos has been making quality glazes and underglazes at great prices since their start in Australia in 1990. When applied properly to bisque and greenware with 2-3 flowing coats, these underglazes provide full opaque, streak free coverage. This product has a nice consistency which is designed to be used right from the bottle for painting, but with the addition of a little clean water, it can be sprayed or sponged to create interesting textures and finishes.

MSDS and colour charts are available at www.Chrysanthos.com.

DAL BISQUE TILES:

Perfect for classroom projects, custom kitchen backsplashes, or any tile based artwork, these square, white tiles come well packaged in plain brown cardboard boxes, and are meant for use with commercial underglazes and glaze. Dust or wipe the tile surface before applying glazes to remove any clay dust and prevent glaze defects. For best results, fire to Cone 06-04. Sold individually or by the case, see pricing below.

1.75" x 1.75" TileEach..... \$0.57
Box of 950..... \$487.35

4.25" x 4.25" TileEach.....\$0.81
Box of 100.... \$69.00

6" x 6" Tile ... Each.....\$1.33
 ... Box of 50.....\$56.60

TILES SETTERS:

For pricing and selection of our tile setters, please refer to our kiln shelving section.

Spectrum Underglazes

Spectrum underglazes are made in Canada and produce excellent colors. These liquid underglaze colors are available in 4 oz. and pint containers, and may be thinned with water and blended together for more shades. **Lead free.** Should be fired at cone 06-04. Cover with a clear glaze for best results. Spectrum #700 clear glaze works well on bisque tiles and other pieces. Gallons of underglaze are available on special order.

Note: These underglazes are meant for cone 06-04 firings. However, most can be fired up to cone 9. Colors will change when firing higher than cone 06-04. Please test higher temperature colour results in your own kiln firings to get the most accurate reponse.

Spectrum Majolica

Majolica colors are meant to be used over and under your favourite glazes. Apply Spectrum Maiolica colors over a white glaze for bright decoration or under a clear glaze like you would with traditional underglaze. Paint "301 White" over a blue glaze for a simple, but effective look. This product is ideal for school use because it means students and artists can easily achieve colourful pieces without covering with a clear glaze later if they wish.

Item	Color	4 oz	Pint

352.....	Rose.....	10.00.....	29.00

Note: other colors are available on special order.

Underglazes Products, Assorted:

Underglaze Pencils:

These Italian wood encased pencils are available in the following colors: Black, brown, blue, green, rose, yellow

- Individual pencils..... \$7.25
- Set of all 6 colors \$41.50

Maximum firing temperature is cone 10 for blue & green, cone 5 for other colors. Black will tend to turn green above cone 5. Yellow and brown will fire lighter above cone 5.

Spectrum RAC Underglaze Pens (2oz):

RAC from Spectrum is a line of slip-based colours (or engobes) which are available in 2oz squeeze bottle applicators, and come with a fine metal tip for decorating on bisque and greenware. You can easily use these underglaze pens to make thick or thin, flat or raised decoration just by varying finger pressure and writing speed. Try using them over and under your favourite glazes to add depth with another layer of decoration. Colours available are:

- | | |
|---------------------|---------------------|
| RAC1, White | RAC9, Pink |
| RAC2, Grey | RAC10, Rose |
| RAC3, Black | RAC11, Lavender |
| RAC4, Brown | RAC12, Light Blue |
| RAC5, Honey | RAC13, Royal Blue |
| RAC6, Bright Yellow | RAC14, Turquoise |
| RAC7, Lime Green | RAC15, Bermuda |
| RAC8, Orange | RAC16, Hunter Green |

- Each 2oz Pen w/ tip..... \$6.25 ea
- Extra Metal tips: \$1.50 ea

Minnesota Clay: U/G Potter's Stamp Pad

Now you can decorate using rubber stamps! The Potter's Pad is a great way to apply underglaze decoration and visual interest. Using the Potter's pad is just like using a regular stamp pad.

Simply apply an inked rubber stamp to a bisque fired piece, allow the decoration to dry and cover with a transparent glaze. Potter's pad inks have been designed to work at a wide range of glaze maturing temperatures. For best results, fire between cone 06 and cone 8. All the colors may be tried at higher temperatures than cone 8 or in reduction. Refills

- Available in 4 colors: Black, Blue, Green, Teal.
- Potters Stamp Pads..... \$16.95

Underglaze Choxils:

Choxils are similar to an underglaze pencil except they are made of solid color, no wood casing. Good to cone 10. Available in these 10 colors: Black, Brown, Blue, Green, Rose, Yellow, Turquoise, Lavender, Grey, Red-Brown.

- Individual Choxils..... \$5.95

Amaco Underglaze Pan Colors:

Sets of 8 pans of underglaze color in a watercolour paint tray. Watercolor technique allows a transparent one-stroke effect from these opaque colors. Use on bisque or greenware. Pink, maroon, peach, rose and yellow are good to cone 6. All others can be fired to cone 10.

- 108 Set** contains: Maroon, pale yellow, dark blue, blue-green, dark green, black, brown, white
- 109 Set** contains: Turquoise, lilac, blue, pink, warm grey, mahogany, yellow, green.
- 110 Set** contains: Purple, light blue, aqua, rose, orange,peach,..... chartreuse, tan.

- Each set, priced at \$28.75ea

Amaco Underglaze Crayons:

Sets of 8 underglaze crayons. Similar to chalk pastels. Use on bisque. Colors may be blended by rubbing or softened by brushing over with water. Cover with clear glaze or leave unglazed for a soft, dry surface. Sponge on the first coat of clear glaze lightly in order not to smear design.

- 208 Set** contains: Turquoise, yellow, rose, dark blue, brown, dark green, black, white.
- 209 Set** contains: Lilac, yellow-green, grey, medium green, light brown, blue-green, dark brown, medium blue.

- Each set, priced at \$28.75 ea

Amaco Velvet Underglazes:

These quality underglazes fire up to high temperatures, yet retain their color.

Chrysanthos Superior Glazes

- **Firing range: Cone 07 - 03**
- **Colours may change with higher temperature firings.**
- **Available in 500 ml (5 Litre sizes available for clear and white glaze)**

Chrysanthos has been making quality glazes and underglazes at great prices since their start in Australia in 1990. Chrysanthos Superior Glazes add bright color and gloss to ceramic ware in one easy step and they come in a great assortment of colors which are all lead-free. Superior Glazes offer a full range of finishes including translucent, semi-opaque and opaque and colours are suffixed by an opacity indicator; "O" for opaque, "S" for semi-transparent and "T" for transparent. Please apply 2-3 coats for the richest colour coverage. This product has a nice consistency which is designed to be used right from the bottle for painting, but with the addition of a little clean water, it can be sprayed as well.

MSDS and online colour charts are available at www.Chrysanthos.com.

Gallons

MS29.....Clear bright.....61.25
MS63.....White gloss.....71.00

We stock just a few of the more popular glazes in gallon containers and can order in any of the other glazes in this series. For prices: see next page

Dry Glazes: Mid temperature

The dry glazes below are carried in stock.

Glaze	500gr	2.5kg	5kg	50 lbs
MS29 Clear.....	7.00	29.00	54.00	203.00
MS63 White gloss.....	8.00	33.00	63.00	230.00

Other dry glazes are available on special order.

Cone 6 dry glazes:

There are many Cone 5 - 6 Laguna dry glazes available on special order. If you are interested, please ask for our list of dry cone 5-6 Laguna glazes.

Cone 9 - 10 Dry Glazes

There are also many Cone 9 - 10 Laguna dry glazes available on special order. If you are interested, please ask for our list of dry cone 9 - 10 Laguna glazes.

Laguna Glazes - DRY

Dry glazes do not contain any suspension agents or brushing media and these glazes may settle after mixing. We recommend that you add bentonite to the dry material *before* adding water, and then sieving your glaze to help keep your glaze in suspension.

- not stocked, special order only
- allow 3-4 weeks for delivery
- Cone 5/6 Temperature

Onglaze Colors

Onglaze or overglaze colors are applied to glazed pieces and then fired again at very low temperatures to fuse the colors to the surface. Also referred to as "China paints" and "Enamels".

Amaco Overglaze Decorating Colors

Set of 8 pans of overglaze color. Permanent, waterbased. Apply over pre-fired glaze and re-fire at cone 018.

- Set #508: Red, yellow, blue, green, black, white, orange, red-brown \$58.00
- Set #509: Peach, turquoise, yellow green, violet, rose, pink, brown, blue \$87.00

Lustres and Metallics

These overglazes add precious metal and jewel-like decoration to already glazed pieces. Since the products are costly, we strongly recommend proper application and firing. We offer luster products from Laguna and Duncan (as well as Hanovia, while supplies last). Firing range: Cone 019-018 on low fire ceramics, Cone 017-016 on stoneware and porcelain. Cone 022 - 016 on glass.

Laguna Metallics

Laguna offers high quality European metallic lustres available in gold and silver colors.

- Laguna bright gold - 2 gr\$32.00
- Laguna Palladium - 2 gr.....\$28.15
