Notice: New Catalog in Development

(Please scroll down to view the old version)

Change  This version of the Greenbarn catalog has served us well for many years, but it is quite "long in the tooth" now and ready for retirement. We are working hard to upgrade our online catalog to a searchable version, with prices, information, color chips, links to manufacturer web pages, mobile device compatibility, and with links to safety data sheets.

Search  Please visit www.Greenbarn.com and enter your keywords into the search bar for detailed product information. You might search by using supplier names like Plainsman, Spectrum, Kemper, and Skutt. You can also search with general terms such as low fire, glaze, tool, and sculpture if you want a broader search. Or, if you know that you want to find a specific product by name, you can enter M370, Potter's Choice, Kaolin, or other product names to take you right to the individual items.

Info  You may notice that some items in the upgraded catalog will have a bold "i" in the description, and this is a clickable link to additional information for you. This link will often take you to a supplier's web page, and away from the Greenbarn website. Where possible, we are also linking material safety data sheets directly to the related catalog items, such as dry glaze materials, glazes and clays.

ETA  Thank you for your patience while we perform this upgrade. The vast majority of our products are already listed in the new catalog, but we expect that this conversion is a process, and that it will take some time to complete the descriptions to our satisfaction. Your feedback is welcome and we will continue to work at making this an easier catalog to use, with more information for you, so that we can help you get back to making your art!

Sincerely,
All of us here at Greenbarn Potters Supply
Wax
Microcrystalline brown sculpture wax - 1lb..........................$31.39
Microcrystalline yellow sculpture wax - 4.5kg slab..................$44.00
- for other waxes: paraffin & beeswax: see page 4 of materials section

Mold Rubbers
We carry 2 different grades of Ammonia based mold rubbers. These rubbers
are all brush on types required multiple applications to build up to the right
thickness.
Note: Use de-natured alcohol to clean brushes when using Pliatex rubber. Use water to clean brushes
with Laguna rubber. Don't wait too long before cleaning, if rubber sets the brush will be ruined.

Pliatex Mold rubber ..............................................$40.95 ............n/a........... $286.00 ............n/a
Laguna Mold rubber ...........................................$21.00 ............n/a........... $115.00 ............n/a
Mold Soap ..........................................................$8.25 ............n/a........... $48.50 ............n/a

Armature Wire for Sculpting
This lightweight, strong and pliable armature wire
is made of a non staining almaloy wire and is idea
to use when sculpting with our Roma and Prima
plasticene clay products. The size indicated is the
diameter of the wire.
1/16" Armature Wire - 32' long .............. $8.29
1/8"  Armature Wire - 20' long .............. $12.69
3/16" Armature Wire - 10' long .............. $15.39
1/4"  Armature Wire - 10' long .............. $27.89
3/8"  Armature Wire - 10' long .............. $37.19

Plaster Bandages
Great for working with children. Can be used easily to make plaster masks or
other shapes. Each package is a roll of plaster-impregnated cotton. Each roll
is 2.7 meters long x 7.5 cm wide. Cut to the size required, dip in water, and
drape on the object you are casting from. Hardens quickly and can be painted
afterwards.
Per roll.................................$4.65
Box of 12 ......................$47.40

Plaster Rasps
Perforated steel rasps for working with plaster. (Sold as a set only)
Set of 3 rasps.........................$64.55

Plastic modelling tools
Set of 12 Duron plastic modelling tools. 6" to 8" length. (Sold as a set only)
Set of 12 ............... $22.39

Multipak..........................$32.99

---

**Sculpey Products**

Sculpey is a plastic modelling compound that you bake in the oven to a permanent hardness. Sculpey is soft and pliable and great for children to use.

Directions for using all Sculpey products:

Knead until soft and smooth. Shape into desired form. Bake on non-metallic plate in 275°F oven for 15-20 minutes per 1/4" of thickness. Ventilate well. Avoid overbaking. Remove from oven and allow to cool. Note: Do not use in microwave oven.

### Sculpey

A white modelling compound that bakes at 275°F in your home oven. Economical, easy handling product for the novice as well as the experienced sculptor. Available in a 1.75 lb or 8 lb pkg.

<tr>
<td>8 lb</td>
<td>$73.50</td>
</tr>
</tbody>
</table>

### Super Sculpey

Super sculpey is a polymer modelling compound, beige in color. Bakes to a hard finish in 275°F oven in 15-20 minutes. Can be used for finished art, prototypes, and sculpture. Excellent for work that requires a hard finish and fine detail. Available in a 1 lb package. An 8 lb package or a 24 lb bulk pack are available on special order.

Note: Do not use in microwave oven.

### Colored Sculpey

Colored Sculpey has the same excellent handling qualities of Sculpey and Super Sculpey, with the added dimension of brilliant color. Bakes to a hard finish in 275°F oven in 15-20 minutes. No painting is required, but a finish can be applied with Sculpey glaze in either a gloss or matte finish. Carried in 2 oz. packages.

Note: Do not use in microwave oven.
