Notice: New Catalog in Development

(Please scroll down to view the old version)

Change  This version of the Greenbarn catalog has served us well for many years, but it is quite "long in the tooth" now and ready for retirement. We are working hard to upgrade our online catalog to a searchable version, with prices, information, color chips, links to manufacturer web pages, mobile device compatibility, and with links to safety data sheets.

Search  Please visit www.Greenbarn.com and enter your keywords into the search bar for detailed product information. You might search by using supplier names like Plainsman, Spectrum, Kemper, and Skutt. You can also search with general terms such as low fire, glaze, tool, and sculpture if you want a broader search. Or, if you know that you want to find a specific product by name, you can enter M370, Potter's Choice, Kaolin, or other product names to take you right to the individual items.

Info  You may notice that some items in the upgraded catalog will have a bold "i" in the description, and this is a clickable link to additional information for you. This link will often take you to a supplier's web page, and away from the Greenbarn website. Where possible, we are also linking material safety data sheets directly to the related catalog items, such as dry glaze materials, glazes and clays.

ETA  Thank you for your patience while we perform this upgrade. The vast majority of our products are already listed in the new catalog, but we expect that this conversion is a process, and that it will take some time to complete the descriptions to our satisfaction. Your feedback is welcome and we will continue to work at making this an easier catalog to use, with more information for you, so that we can help you get back to making your art!

Sincerely,
All of us here at Greenbarn Potters Supply
