

**Giffin Grip (Model-10)**

Newly redesigned blue sliders and pads are taller and go in closer for more precise range of use. This classic and essential re-centering tool makes trimming and decorating a snap! Three sliders and arms gently move the pot into the centre and secure it there until you release it. After an initial adjustment, the Giffin Grip flexibly snaps on and off your wheel without any tools! Included in the package are a full set of the basic and wide-slider sets, and a set of 15 rods with hands.

Giffin Grip.....\$309.00

**Giffin Grip, Model-10, Parts & Accessories**

- BBS3 ..... Blue, Basic sliders - set of 3..... \$36.49

- RH53 ..... 5" rods with hands - set of 3 ..... \$18.19
- RH63 ..... 6" rods with hands - set of 3 ..... \$18.19

**Batmate**

Xiem Batmate™ is the perfect solution for annoying bat jitter and warping. Dampen this soft "chamois-like" material, sit it on your wheel head and it holds your throwing bats firmly, replacing bat pins. Or place Batmate™ below your problem bats on the wheel and instantly your warped bats become more stable. It is also great for trimming bowls and plates. Stop hunting for those missing bat pins and try this easy alternative.

12" Round .....\$13.29

14" Round .....\$14.69

**Northstar Universal Bat System**

Save time and clutter! The Universal Insert Bat System is designed to allow potters to throw on a removable bat insert, saving time and space by having less bats. The outer bat is a 13" diam. Medex bat holder and the inserts are 5.5" Duron which fit flush with the top of the outer bat.

- Universal System (with 9 square inserts)..... \$77.00
- Replacement 5.5" Square Batts (12 pack) ... \$31.00

**Warranty Notes (taken from the manufacturer):**

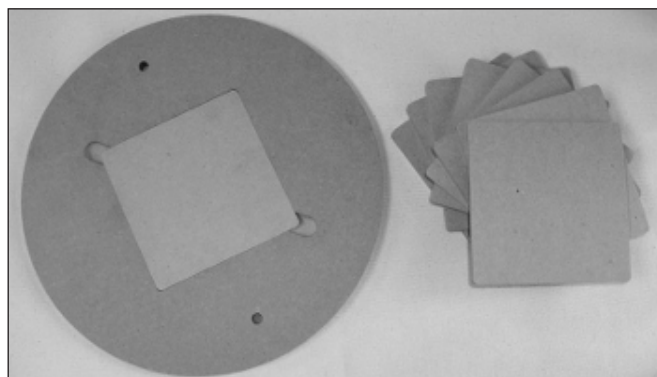

We are not able to control the way bats are used or the environment in which they are used. For these reasons, throwing bats carry absolutely no warranty beyond accurate drilling to Northstar specifications and arrival in good condition.

**Care Notes (taken from the manufacturer):**

1. Clean them after each use.
2. Avoid keeping them wet for long periods of time and avoid bending them when they are wet.
3. Warped bats can usually be flattened by drying them in a stack with a weight on them.

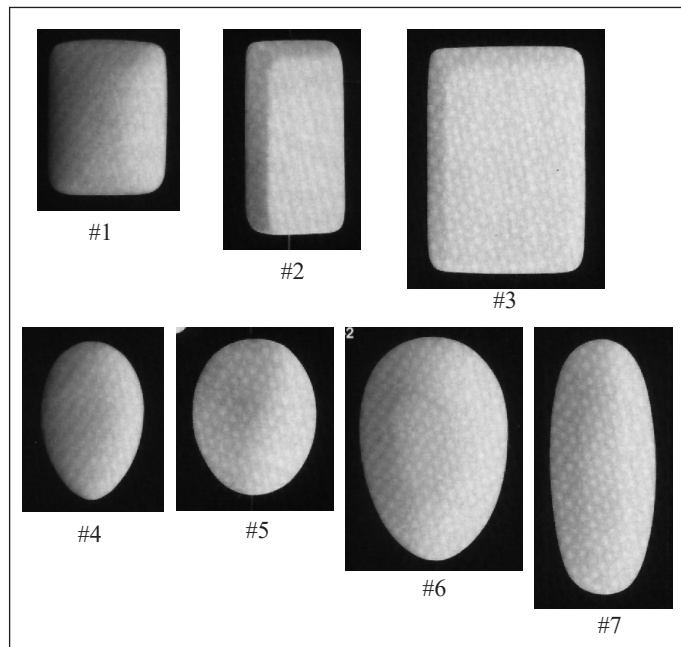

**Perfect Fit of your Inserts (taken from the manufacturer):**

The final fit of the inserts is determined by the users personal preference. Inserts can absorb moisture and change dimensions slightly. The inserts are cut to fit tightly but you may wish to lightly sand edges for increased side to side play. Do occasional fit checks while you are sanding and after regular use on the wheel. After using the system several times, the wood will "settle in" and minimal changes to the dimensions of the inserts will occur.

### Drape Molds

This set of plaster drape molds is widely used in schools, private studios, and are particularly useful in the occupational therapy departments of hospitals. Available in seven shapes and sizes, these plaster molds can be used to make an unlimited number of forms including bowls, platters, planters, vases, masks, and dishes. Just drape a slab of clay over the top of the mold and let your originality do the rest.

Mold	Dimensions: L x W x H.	Weight
#1.....	7-1/2" x 5-5/8" x 1-7/8" .....	1 lb.
#2.....	9-3/8" x 4-1/2" x 1-1/2" .....	2 lbs.
#3.....	11" x 7-5/8" x 1" .....	2 lbs.
#4.....	7-1/2" x 4-3/4" x 1-1/2" .....	1 1/2 lbs.
#5.....	7-1/2" x 5-3/4" x 3" .....	1/2 lb.
#6.....	11" x 7" x 2-1/4" .....	2 1/4 lbs.
#7.....	12-1/4" x 5-1/4" x 2-1/4" .....	2 lbs.

Drape molds, each..... \$38.99 each

### New! Hydro-bat

The Hydro-Bat is made of Hydro-Stone, a USG product containing cement and crystalline silica, that is 8 to 10 times stronger than pottery plaster. The surface is durable yet absorbs water like plaster eliminating the need to cut your pieces off the bat with a wire. The Hydro-Bat was designed to fit on wheel heads that have bat pins spaced 10 inches apart on center. Rubber grommets cast into the underside of each Hydro-Bat and are spaced 10 inches apart to fit most wheels. so that you won't have to stick these to your wheel head with clay! Easy, absorbent and strong!

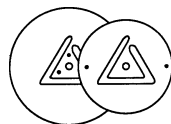

12" .....\$24.89  
14" .....\$28.39

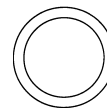

### Pure & Simple Quick Release System

For use with the Pure & Simple plastic molds shown on the next page, the tongue-n-groove Quick Release accessory is a system that allows you to instantly center and secure the bat to the wheel-head. Batts prepared with the Quick Release mold quickly snap onto the wheelhead attachment. It has been tested to secure up to 50 lbs. of clay without wobbling. See next page for pricing please.

### Plasti-Batts

The Plasti-Batt was designed to be a high quality, long lasting batt. Made of non-absorbent plastic, with a textured surface so clay will stick to the surface.

8" Round .....	\$14.89	16" Round .....	\$45.69
10" Round .....	\$17.89	18" Round .....	\$58.79
12" Round (drilled) .....	\$22.39	20" Round .....	\$65.79
14" Round (drilled) .....	\$26.99		

### Creative Industry Batts

Treat yourself! Creative Industry batts have molded sockets underneath which fit onto Creative Industry, Brent, Shimpo, Pacifica, Lockerbie, and Thomas Stuart wheels for easy placement onto your wheelhead. These batts are manufactured from injection molded plastic, have a long life, and feature an "easy lift rim" for quick removal.

7-1/2" Square .....	\$10.99
12" Round .....	\$15.09
14" Round .....	\$17.49

### Plaster batts

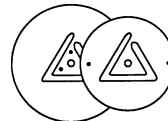

Thrown work will release itself! No need to wire off your work with these quality, absorbent plaster batts.

8" .....	\$9.60
10" .....	\$11.80
12" .....	\$13.70
14" .....	\$15.70

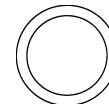

### Pure & Simple Plaster Bat Molds

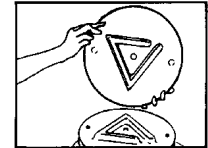

These permanent, re-useable, durable plastic molds enable you to make your own plaster batts in a variety of shapes and sizes for use on your wheel. Use this batt system to throw plates, bowls and lids upside down and all you have to do is form the foot or knobs as needed. Your ware will be consistent and little or no trimming is required. Brochures are available giving more detailed instructions on how to use these molds.

### Pure & Simple SlumpHump Molds

The SlumpHump Mold is a permanent, re-useable, durable plastic mold that allows you to pour your own low-cost plaster drupe molds for slab work. The reversible design lets you pour both hump molds and slump molds, and the tapered wall lets you vary the size and depth of your molds by letting you add more or less plaster. Please see below for details and ordering codes.
